## More about **Dita**

**DITA is here to help people get the most out of their local transport services. Our twin aims are to boost the economy in our local area and reduce carbon emissions. We want more people to use public transport - or active transport such as cycling or walking - leaving their car at home whenever they can.**

**We want to boost the provision of public transport and increase accessibility into more rural areas.**

### **Fact: Travelling on the bus can be cheaper**

It costs someone travelling from Pateley Bridge to Harrogate and back, even in a low-cost, fuel-efficient car £13.28 - and that's without the parking costs!\*

### **Fact: Travelling on the bus is greener**

Switching from car to bus for just one national journey in 25 would mean one billion fewer car journeys on our roads annually and could save 2 million tonnes of CO<sub>2</sub>

### **Fact: The more we use bus services, the more services we will get**

It's a case of "use it or lose it". The more we can commit to travelling by bus in Nidderdale, the more sustainable our services become - which means people of all ages can get out and about more

To find out more, contact us through our website at [www.dalesconnect.net](http://www.dalesconnect.net) or call the **DITA hotline: 01423 724555**.

Dales Integrated  
Transport Alliance

*Department for  
Transport*

\* For average yearly car use of 10,000 miles the running costs vary between 44.26 p per mile and 133.41 p per mile depending on the model of car and purchase price.
